

### Autumn 2 Homework Grid – Year 1

This grid has been created to support our Autumn 2 topics.

Children could record some of their experiences in their homework books if they like, using words, pictures, diagrams or photographs. Alternatively they may like to share their experiences verbally with the class – there will be some time allocated each Wednesday for them to do this. Have fun!!

<b>Verbal</b> <b>I enjoy reading, writing &amp; speaking</b>	Keep a weather diary. Write the days of the week and record what the weather is doing each day? How many adjectives can you use to describe the weather?	Think about your journey to school. Ask a grown up to record you describing your journey using adjectives to describe the places you see. Send your video to school 😊	Think back to the autumn walk you went on last half term. Revisit the same place – what has changed? If you have photos why don't you create your own spot the different game!	Can you recall the story of the very first Christmas? Create a 'value line' placing the people in order of the most to the least important to you. Tell your grown up why you have ordered them in the way you have.
<b>Visual</b> <b>I enjoy painting, drawing and visualising</b>	What is the weather like today? Paint or draw a picture to match the weather outside your window.	Draw or paint a picture to represent one of the 4 seasons. Write a senses poem to match your picture ... I can see, I can hear, I can smell, I can taste, I can touch!	Research our artist Kandinsky and recreate one of his paintings.	Draw a map of one room in your house. Label the different parts just like we have been practising in geography (I suggest leaving this activity until nearer the end of term!)
<b>Kinaesthetic</b> <b>I enjoy doing hands-on activities</b>	Use Google maps to search for your house and houses of your family. Can you find Corbridge First School? What about other places you like to visit?	What can you invent with a plastic milk carton?  20 school360 points for the best creation (you can submit more than one entry!)	Research a Christmas recipe and have fun making! A favourite in the Sanderson household is the gingerbread house!	Design and make your very own Christmas decoration using only natural materials. Repeat using man-made materials. Which do you prefer?
