

4 May 2022

Dear Year 4 Parents and Carers

**Join your child for a special learning session on Monday 23 May.**

We would like to invite you to join your child for a special learning session on Monday 23 May from 9.00am until 10.30am. After dropping your child off in the playground please come into school via the office, where tea and coffee will be offered.

This term in Science we will be learning about 'Living Things and their Habitats'. We will be learning how to categorise living things into groups. In our session together, we will take a closer look into vertebrates and invertebrates. We will be doing a practical activity that you can take home to keep. The children always enjoy sharing school activities with you and I hope you will be able to come along. It is a great opportunity to see how the children learn in school.

So that we can accommodate everyone comfortably, we will have to limit this to one parent or other family member (grandparent/aunt/uncle) attending for each child. Please return the reply slip below by Tuesday 10 May to let us know if you will be able to come along – this will help us make provision for someone to work alongside any children who don't have a family member able to attend.

We look forward to seeing you then.

Yours sincerely

Mrs Rutherford  
Year 4 Class Teacher
