

Spring term 1

Week 3

I am very proud of all the children. Their enthusiasm to learn new skills, knowledge and concepts is great to see!

This week we have:

- Listened to the story Lost and Found- we didn't see the pictures in the story, so we had to use our imagination
- Retold the story by sequencing pictures
- Used our phonic knowledge to write words
- Practised reading short sentences
- Wrote questions to find out information about penguins
- Learnt all about primary colours. We then mixed these colours to make new ones.
- Explored how to make different shades of blue (to show cold colours)
- In maths we practised adding 3 groups together to make 5.
- Played maths games on the computer in the ICT suit
- Categorised clothing that we would wear in the summer/winter
- Played tricky word bingo
- Solved number problems by working out how many objects were missing.
- In PE with Mr Thompson, we learnt how to do the long jump successfully.
- Our Friday morning challenge was to make a shelter for a penguin. The shelter had to protect the penguin from the iced cold winds.

Next week we will be moving from the Antarctic to the Arctic. We will be learning about polar bears and other Arctic animals.

Just a quick reminder to return home-learning books on a Wednesday.
